23 March 1961

MEMORANDUM FOR : Chief, Development Branch, DPD-DD/P

SUBJECT : Identification - McDonnell Aircraft Corporation Personnel

1. The purpose of this memorandum is to identify as requested certain McDonnell personnel known to the writer as of December 1959 who might qualify as candidates for the current OXCART airframe monitor requirement. Clearly, this is an identification of known personnel and not a recommendation of any one over others currently under consideration.

2. Attachment 1 tabulates a general brief on each person as estimated by the writer as of December 1959.

25X1

25X1

(a) The best approach to Level A, and possibly B, probably would be a temporary leave of absence as a consultant. This would require arrangements with [redacted]

25X1

25X1

[redacted] who would be the top candidate in the writer's opinion were it not for his key position in the organization. [redacted] also might require clearance.

25X1

3. The personnel listed on attachment 1 reflect a very small segment of a large organization where much talent exists. There are without doubt many more individuals in the organization who might exhibit greater qualification than those listed in levels B. through D.
